

Wetheringsett Manor School

What we've been up to

After a busy Christmas period, it was great to get back into the swing of things for our first half term of the new year. The school council have continued doing great work fundraising, whilst we have also seen great projects in art as well as Horticulture which is just the tip of the iceberg of all the work we do!

Christmas at Wetheringsett

Our last week before the Christmas break was filled with lots of festivities we really loved. Our annual Christmas dinner continued as well as the fantastic Christmas market run by the school council. We even made festive wreaths in Horticulture to truly get into the Christmas spirit!

Our pebble project

In arts award we've been stone painting this term and leaving them in public to hopefully be moved across the region. We have our own hashtag on the back of them so we can see the progress and we are really excited to see just how long of a journey our stones end up making!

School Council fundraising

Through our efforts before Christmas and a couple of bingo nights for staff the school council have raised £326.12 for cancer research and we had some visitors from the charity which we presented the cheque too. The council also have a huge amount of plans in the future for more amazing fundraising!

A postcard update

Our climate change postcards have already been on display in Ireland for an exhibition and they will also be on display in other exhibitions across the UK before we receive responses. All the artwork is incredible but its especially great to see amazing work from some of our own students.
