

Our school values

Our three fundamental principles that everyone in school works to uphold.

No Limits or Barriers

There is no concept of “good enough” for our pupils. We will continue to strive for outstanding in every aspect.

Individual Development

We understand that developing our pupils socially will allow greater achievement in all areas of their lives.

Maximise potential

We will continually adapt to best meet the needs of our pupils, so successes are not only aspirational but achievable.

Personal development across the school

These are the key areas that all pupils will work towards across each half term as agreed areas for personal development

Resilient

Our overall aim is for our pupils to challenge themselves and not give up at the first sign of difficulty.

Confident

We encourage pupils to ‘back themselves’ and put themselves in a place where they embrace new situations and challenge themselves without fear.

Tolerance and Acceptance

In an increasingly challenging environment and changing cultural landscape, we continually work to develop, not only tolerance but acceptance in all our pupils.

Respectful

We feel that there should be respect for each other regardless of status. This is something we actively promote across all areas of the curriculum.

Happy and Healthy

This could be described as an ‘ultimate aim’ for everyone. Regardless of academic success all we can ask is that all staff and pupils are Happy and Healthy.

Successful

Success should be celebrated in whatever form it takes. This approach is key to the progression of pupils here at Wetheringsett and every little success is always held in high esteem.

Our approach remains - I do, we do, you do
